

Abara Overview

Sami is the Founder and Director of Abara, a nonprofit based in El Paso, Texas serving both sides of the US-Mexico border. In response to global migration in a polarizing world, Abara inspires connections beyond borders through mutual understanding, education, and meaningful action. Abara hosts immersive border learning experiences, supports dozens of migrant shelters on both sides of the border, and is developing Abara House, a Borderland Center for Beloved Community located on a historic river crossing adjacent to the US-Mexico border fence.
